WAR WAS PLANNED

By Queen's Dutch Subjects for Twenty Years.

MOST SERIOUS INDICTMENT

Yet Made of Boers' Methods of Warfare Cited by the American Correspondent, Julian Ralph-Not Farm ers, but Nomads-Have Abused White Flag in Every Battle-Knew Not Value of an Oath.

LONDON, March 29.-The most serious indictment of the Boers methods of warfare which has yet appeared in England, comes from Julian Ralph, the American war correspondent, in a let-ter from Kimberley, published in this morning's Daily Mail. It is, in part, as

"It is a war steadily and stealthly planned by the queen's Dutch subjects and the Dutch republics for fully twen-

g years. For between four and six years the have been equipped for it. They began purchasing arms and planning defences before the Jameson raid. Let no one feel you with the fulsehood about that, Pinally Precident Kruger begged President Steyn to declars war three years before President Steyn consented. Next rd your mind of the notion that you are crushing two farmer republic. There is not a farmer in the two countries and only one, the Free State, was a repubhe in any way except misnamed. These people are herders of cattle, sheep and goats, like the Israelites of old and the Afridia Turks and Balkan peoples of to-

"His (the Boers) so-called farms ar as nature made them, merely reaches of voidt whereon his cattle graze. On each one he has put up some hut and its surroundings are almost invariably more repulant and disorderly than any houses I ever saw, except the cabins of d slaves in the United States, Their camps and strongholds from which we have routed them are the filthlest plac s I have known men of any sort to live in, and I have seen red Indian, Chinese and Turkish camps, and the camps of many sorts of black men. As to their bravery and honor, I have seen and beard sufficient to fill a page of the Daily Mail with accounts of their cow arily and dastardly behavior before I ame to Kimberley. "But, here, I find they have been

gally of different and original enormi Here they killed our wounded and hid their bodies in a row after one of the forage out of town. Here they semed many blacks to fight against us, showing at the world how scandalous-iy fraudulent were their exclamations of horror at the idea of our employing antive Indian troops. There has hardly been a battle in which the Boers have not abused either the white flag or the Ganava cross, or both. At Spion Kop our people saw them loading Maxims in ces, in order to get them safely away. This we saw them do at Modder river also, and Kimberley is where the Boers shelled the funeral cortege of George L. Abram, an American. many places they fired on our ambu-I saw them do it at the Modde over and saw them fire on our stretcher bearers in that battle time and time again. When we entered Jacobsdal, it

boked like a city of doctors.
"Every man in the stracts were the Hed cross bandage on his arm. These were the men who had just been shooting us from behind garden walls. There was nothing novel or original their seeking the cowardly shelter of the doctor's budge. We have become quite accustomed to it. We once entered a Boer hager after a victory and found twenty-seven or these bogus doctors and seven or eight wounded for their patients. They have not been content with looting the houses of the loyalists in the British colonies, but in Natal, in scores of instances, they have smashed into kindlings and torn into ribbons whatever they did not want or could not carry off. Worst yet, they have fouled the walls of the homes of defenseless women with obscene writings. They never knew the value of an eath or promise and have not learned it since the war began.

Throwing Bouquets at Hay.

LONDON, March 28.-The afterno newspapers here unanimously applaud Secretary Hay's diplomatic achieve-

Secretary Hay's diplomatic achievements in establishing the doctrine of the open dog in China and say his success is much more considerable than hitherto realized.

The St. James Gazette remarks: "The United States has conferred a benefit on the whole civilized world by securing an agreement on a subject of such yast importance to the prospects of place as well as commerce."

The Globe thinks there is substantial reason for according the final leadership in "this immensely important movement inaugurated by Lord Salisbury to the United States, owing to Europe's Jealousy of Great Britain, while on the contrary all the great powers will now vie with one another in their professions of friendship for America," and adds: "Secretary Hay's detreous skill in completing his task has left nothing to be desired."

The Wages of Sin is Death.

NORWICH, Conn., March 28.—The body of Miss Annie C. Lamb was found feating in Pequetanuick Cove, a small feating in Pequetanuick Cove, a small town on the Thames river, about five miles below here to-day. On January 2, Mies Lamb and Frederloit H. Moll. a tallor, for whom she worked, disappeared, and their whereabouts was unknown until last Monday, when the body of Moll was found in the same place where the woman's body was discovered to-day. Moll was about fifty-three years of age, and at the time of his disappearance he deserted his wife and four children, leaving them destitute. It is supposed that Moll and Miss Lamb walked down what is known as Drawbridge and jumped overboard.

FINANCE AND TRADE. The Peatures of the Money and Stock

Markets. NEW YORK, March 28 .- Money on call steady at 3@4 per cent; last loan 3 per cent. Prime mercantile paper 4% @ 5% per cent. Sterling exchange firm, with actual business in bankers' bills at \$4 86% for demand and \$4 82%@4 82% for 60 days; posted rates \$4 834 and \$4 87, Commercial bills \$4 8134894 8254. Silver certificates 60% 201%c. Bar silver 50%c. Mexican dollars 47%c. Government bonds steady. State bonds inactive. Railroad bonds irregular.

The stock exchange atmosphere was rather oppressive during to-day's session and dealings to take profits wer absorbed with less facility than on previous days during this week. No better explanation of the reactionary tendency of the market can be found than the falling off in demand for There was some manipulation for the decline which was effective among the industrials and specialties and which brought out a volume of offerings that looked like the uncovering of stop-loss orders. But in the railroad list ther was no indication of forced rallying. The profit-taking proceeded apparently in an orderly manner, and any considerable recession in prices led to a decline in the volume of offerings and a dull market. Stocks which have gone up the most during the week turally most affected, notably the Transcontinental railroad and the Southern trunk lines. There was some indication of positive weakness in some the grangers and the coalers, the tendency in the latter group being due to the rather disappointing February statement of net earnings for th Reading company.

There were not lacking also points of strength in the railroad list. The most notable upward movement of the day was in stocks of railroads in Central Traffic territory and what might be called subsidiary Vanderbil: lines. Cleveland, Cincin-nati, Chisago & St. Louis led the move ment and it was shared in by Chesa-peake & Ohio, Pittsburgh, Cincinnati, Chicago & St. Louis, Canada Southern and the New York, Chicago & St. Louis stocks. The professed ground of this advance was a conference of railroad officials in this city looking to the enforcement of agreements to maintain rates. The Atchison stocks, Louisville & Nashville and some other less con spicuous stocks continued strong. Aside from the desire to take profit the halt in the buying demand was due to appre hension over the effect of the gloom; official outgivings regarding the prospect for future dividends on the stock of the Sugar company. A sharp break in that stock at the opening seemed to have very little effect on the market. But when its weakness was seen to persist, sympathetic heaviness developed elsewhere in the industrial list and among the local traction stocks. There was no indication of stiffness in the money market but probably the relaxed demand for speculative purposes had something to do with this. The end of the month and of the quarter involve

against a daily average of nearly a million heretofore this week. This symptom attracted attention notwithstanding that the gain by banks from the sub-treasury for the week still amounts to considerably over a million dollars. London continued to trade actively in this market, but with much less influence on sentiment than heretofore, owing to the knowledge that the purchases for that account are carried to a

some preparation to meet dividend and

interest obligations and this factor be-

got some spirit of caution about using

too freely the facilities of the money

ury for the first time this week gained a small amount from the banks and the

government institutions debit balance

at the clearing house fell to \$340,698, as

The sub-treas-

market in speculation.

The bond market continued active and for the most part strong, though there were points of weakness in the

large extent by money borrowed in New

list. Total sales par value \$3,815,000. United States bonds were unchanged

Breadstuffs and Provisions

Breadstuffs and Provisions.

CHICAGO—Wheat was excited at times to-day, tossed about by conflicting influences which in their turn held sway, but the close was barely steady, May a shade under yesterday. Provisions were strong and full of virility. May pork was at one time 52½c, but closed with nearly half of this gone. May lard closed 2½d. Eo down and May ribs 7½c improved. May corn closed a shade higher and oats unchanged for May and ½d½c up for July. The wheat market opened unchanged from yesterday at 65%d6tc, and then probably because Liverpool was not up as much as expected in view of the advance here yesterday and because some private messages cast aspersion on the truthfulness of yesterday's report of damages to the French crop, sold off to 65%c. At this discouraging feature of the session New York made an upward spurt, fearing war as an outgrowth of the difficulties existing between Russia and Turkey and the local crowd of shorts covered in some slarm. A report from Duluth of heavy export movements assisted in the bidding, as did the strength of provisions. May raillied to 67%c, but failed to hold it, although further cables from France were in contradiction of earlier ones, reasserting that the damage in France was serious. There was considerable profit taking at the top and shorts apparently took a calmer view of the Turko-Russian situation, for May sold off to 66%c and closed barely steady, a shade under yesterday at 66%. On the advance the pit was excited and at other times rather nervous. New York put the export business for the day at twentyl oads. Clearances in wheat and flour were equal to 179,000 bushels, compared with 513,000 bushels a year ago, Local receipts were \$4 cars, none of contract grade. Minneapolis and flour wers equal to 179,000 bushels; primary receipts were 554,000 bushels, compared with 513,000 bushels a year ago. Local receipts were 42 cars, none of contract grade. Minneapolis and Duluth reported 456 cars, against 708 last week and 550 a year ago. The provisions market repeated its exhibition of strength and excitement to a crowded pit. Hogs were higher at the yards and receipts of hogs small. This, combined with the heavy outside demand and the frantic efforts of shorts to cover in a market where offerings were and receipts of nogs small. This, combined with the heavy outside demand and the frantic efforts of shorts to cover in a market where offerings were light, caused a swift advance. May pork was the main attraction. This openion opened 174,025c over yesterday at 312 65,012 72½ and in a wild burst of bidding shot up to 313 00. The highest prices since 1895. On the bulge there was heavy profit takings. Some interests took profits on the whole list. Lard suffered more than pork and ribs in this manoeuvre. Pork lost only part of the advance, closing 27½ over yesterday at 312 70. May lard ranged from 36 62½ 036 43½ and closed 2½ 036 tower at 36 47½ 65 50; May ribs from 35 60½ 6 76, with the close 7½ 040 at 38 70. The corr market was less active than wheat and did little better than holding its own, although the export business was put at 100 loads and provisions extended an influence of strength, while cables were strong. There was good buying, but there was also plenty on the market which tended to equalize matters. Local receipts were 446 cars. Clearances were 44,000 bushis. May ranged from 33% 635% c. closing a shade over yesterday at 38% 6354c.

The oats market was firm with July in somewhat better demand than May. Trade was without much feature and quiet. May ranged from 24% 624½ and closed unchanged at 24% c. July sold from 23% 624c, closing 4,004 c improved at 23% c.

at 23%C.
